The convoys came from the direction of Wismar and proceeded toward Ludwigslust. [redacted] the personnel of the Hagenow military post were also moving out because on the same day the road to Krebsfoerden was blocked. Residents of Schwerin alleged to have observed tanks and artillery moving toward Ludwigslust. The tanks come from the direction of the Goerries airfield. #### Comments.

(1) The units involved are believed to have been from the Wismar post, including units of the 288th Gds Mtz Rifle Regt of the 9th Gds Mtz Rifle Div. Information received [redacted] which observed vehicle convoys of elements of the 283d Gds Mtz Rifle Regt from Hagenow and from the Schwerin military post passing through Perleberg toward Wittenberge and Bad Wilsnack indicates that these units also participated in the movements observed. [redacted] The troop movements observed were very probably connected with exercises held by component units of the Third Shock Army in the area between Letzlingen Meath (northern section), Rathenow and Havelberg about 23 September. [redacted] The train observed on 19 September, probably carried a unit of the 4th Gds AT Arty Brig (US) of the IX Mtz Rifle Corps.

(2) These data confirm the observations [redacted] according to which one train each loaded with units of the 9th Gds Tank Div was unloaded at the Altruppin railroad station on 21 and 22 September 1952. After 23 September, the units participated in exercises in the Rheinsberg-Mirow area. According to the present report, these exercises were completed on 26 September. In a previous report, the assumption was that the infantry and artillery elements of the division concerned had reached the training area by road. [redacted] The data contained in paragraph 2 of the present report indicates that these units included the bulk of the 33th Gds Mtz Rifle Regt. These units can therefore be considered as being confirmed in the Infanterie Kaserne in Neustrelitz until 23 September. The information on the individual units observed leaving the various military installations of the post agrees with the previous assumption of the occupation of Neustrelitz.

(3) [redacted] it is inferred that the train carried units of the IV Arty Corps, probably of the 4th AT Arty Brig (US), which are believed to have returned from Rostock Meath where they had held firing practices. The vehicles observed in the streets of Stralsund belong to the GOFB.

(4) [redacted] it appears that the two convoys belong to the 2d Light Arty Brig (US) and the 90th RL Regt (US). The units were probably returning from firing practices in Jueterbog and were probably proceeding to their posts in Doeberitz and Schoenwalde.
